Foreword

This edition is not a collection of events; it is a reflection of intent translated into action. Across our schools, every milestone captured here is the outcome of deliberate effort, clear vision, and an unwavering belief that education must transform lives. From classrooms to competitions, from teacher development to student achievement, each story carries a common thread, commitment without compromise.

SILVER JUBILEE CELEBRATION

Adani Public School, Mundra | 26th April 2026

25 Years of Vision, Resilience & Empowering Education

On the shores of Mundra, a quiet dream took root in 2001, with just 233 students, anchored in a belief that education can transform lives. Twenty-five years later, Adani Public School stands as a thriving institution of over 2,300 students and 100 educators, a powerful reflection of vision sustained and resilience lived.

The Silver Jubilee was not merely a milestone, but a celebration of enduring impact of young minds shaped with care, values that guide with integrity, and aspirations that reach far beyond circumstance. It was a moment where generations came together, alumni, students, teachers, and parents, united by a shared sense of belonging and pride.

At the heart of this journey is Dr. Priti Adani, the Chairperson of Adani Foundation, whose foresight and conviction transformed a fragile beginning into a centre of excellence. In the aftermath of the 2001 Gujarat earthquake, she chose to build not just a school, but a foundation of stability and hope, nurturing what she fondly calls her "first child."

Her words honoured the silent strength behind the institution, teachers who inspired beyond classrooms, parents who entrusted with faith, and students who chose to rise with courage.

In his message, Respected Shri Gautam Adani Ji, Honourable Chairman of the Adani Group, reflected on the deeper purpose of education as a force that shapes character, builds resilience, and instils a lifelong sense of responsibility towards society. He emphasised that true success lies not merely in achievement, but in the values one upholds and carries forward in life.

From the ceremonial welcome to the unveiling of world-class facilities, every element of the celebration reflected dignity, aspiration, and collective pride.

The Silver Jubilee is not a conclusion, it is a continuum. A reaffirmation that institutions built on vision and values do more than educate, they ignite generations.

A Journey of 99.60% Excellence

99.60%

Navdeep Sharma

DAV ACC Sr Sec Public School
Barmana, Himachal Pradesh
(Managed by Adani Foundation)

Navdeep Sharma of Class 10 has brought immense pride to **Adani Foundation managed DAV ACC Sr Sec Public School, Barmana (HP)** by securing an outstanding **99.60% in the CBSE Board Examinations**, with a **perfect 100 in English, Science, and Information Technology**. Crediting his parents and teachers for their unwavering support, Navdeep highlights the power of structured preparation and guided learning. In his own words:

"This achievement is the result of discipline, daily study, and the constant encouragement of my teachers and parents. I followed a consistent routine of 2-3 hours of self-study, minimized distractions, and stayed focused on my goals. Small breaks, meditation, and a healthy lifestyle helped me stay positive and energized throughout. This journey has truly been unforgettable."

From Barriers to Breakthrough

The Surguja Story

At Adani Vidya Mandir Surguja, the dream of a 100% Class X result (2026) was not just ambitious, it was transformative. The cohort comprised largely first-generation tribal learners, many navigating language barriers, fragile home environments, and academic gaps.

The journey began early, in Class X, with a data-driven academic blueprint. Baseline assessments identified learning gaps, and personalized targets were set for every child. Guided by the unwavering principle of “No Child Left Behind,” academic planning became precise, structured, and relentless.

By August 2025, nearly 80% of the syllabus was completed with conceptual clarity. an intentional move to eliminate last-minute pressure. Continuous answer sheet analysis, targeted remediation, and rigorous question bank practice ensured that no weakness remained unaddressed. Peer learning groups fostered collaboration, while subjects like Science were taught through practical exposure, making learning meaningful and accessible.

Beyond academics, the school built a circle of care. Regular PTMs, personalized home visits, and differentiated counselling ensured parental alignment and emotional support. Teachers, driven by recognition and a shared purpose, became mentors in the truest sense.

Within this ecosystem many stories emerged like that of Neha Kumari, a student who rose above severe personal turmoil through consistent support and belief.

The result was not merely 100% pass, it was 100% transformation. Confidence replaced doubt, clarity replaced fear, and every child walked into the examination hall prepared, not just to pass, but to succeed in life.

Achievements

AVN Upparwahi Student Selected for ISRO's YUVIKA Programme 2026-27

Indian Space Research Organisation has selected Ms. Lavanya Pidurkar, a Grade X student of Ambuja Vidya Niketan, Upparwahi, for its prestigious YUVIKA (Yuva Vigyani Karyakram) 2026-27.

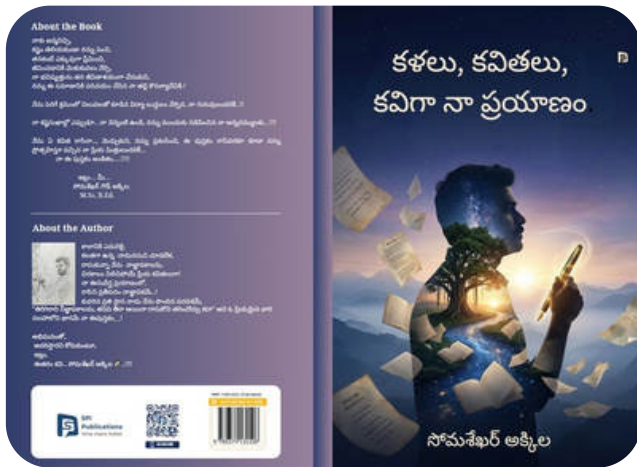

YUVIKA is a two-week residential programme designed to nurture young scientific minds by providing foundational exposure to space science, technology, and applications. The selection process is highly competitive, involving a rigorous evaluation of academic performance followed by a national-level online assessment.

From lakhs of applicants across India, only 456 students were selected this year, placing Lavanya among a distinguished group of young learners with exceptional scientific aptitude.

Achievements

Literary Achievement at Penna College of Cement Sciences

Penna College of Cement Sciences celebrates a noteworthy achievement from its team member. Mr. A. Somashekhar, Chemistry Lab Assistant, has authored and published a Telugu poetry book, reflecting his deep passion for literature alongside his professional commitment. This accomplishment highlights the college's encouragement of creativity, self-expression, and lifelong learning among its staff.

Dreams Take Flight: AVMA Students Qualify for JEE Advanced

In a moment of immense pride, 11 students of Adani Vidya Mandir, Ahmedabad, have successfully qualified for JEE Advanced, marking a significant milestone in their academic journey.

Students Qualified for JEE Advanced:

- Parth Rathod – 88.97
- Vinit Patani – 86.16
- Janmajay – 90.88
- Jaimin Jani – 83.25
- Dev S – 85.00
- Aditya – 83.86
- Md Zaid – 93.91
- Vedant Dodiya – 85.50
- Smit Leuva – 91.34
- Kabir Chavda – 78.33
- Vrushant – 73.19

Achievements

AVMA Student Recognised at National Quality Summer Funcamp

Devansh Panchal (Class X A) of Adani Vidya Mandir, Ahmedabad, has secured a winning position in the Essay/Article Writing Competition at the 3rd Online Quality Summer Funcamp, organised by the Quality Council of India in association with the National Board for Quality Promotion.

Participating under the theme "Quality Champions: Small Steps, Big Impact," Devansh demonstrated thoughtful insights on the importance of quality in everyday practices and systems.

As a NABET-accredited school, Adani Vidya Mandir Ahmedabad continues to embed quality consciousness, structured processes, and continuous improvement into its learning environment.

Devansh was awarded a Certificate of Achievement in recognition of his accomplishment.

Navchetan Vidyalaya Students Excel in Class 5 CET

Navchetan Vidyalaya, supported by Adani Foundation celebrates the commendable performance of its students - Master Deep Lad, Yug Patel, and Teesha Patel - in the Class 5 Common Entrance Test (CET) conducted by the Government of Gujarat.

The CET comprises objective-type questions based on the Classes 3 to 5 curriculum, covering Mathematics, Gujarati, Environmental Studies (EVS), Basic English, and Logical Reasoning. The examination assesses students' conceptual understanding, analytical ability, and problem-solving skills.

Performance in this examination enables students to secure admission with free education in Gyanshakti Residential Schools / Rakshashakti Schools, along with eligibility for the Mukhyamantri Gyansetu Merit Scholarship Scheme.

Achievements

Rising Above: A Story of Determination and Excellence

Nagaram Pavani | 97.7%

Nagaram Pavani of Adani Vidya Mandir, Krishnapatnam, has demonstrated exceptional academic excellence in the Intermediate Public Examinations (IPE) 2026, securing an outstanding 97.7%, with a perfect 100% in Physics, Chemistry, and Mathematics.

Coming from a family of daily wage workers, with her mother as the sole breadwinner, Pavani has navigated significant financial and social challenges. As the eldest child, she balances responsibility at home with unwavering commitment to her education.

Despite limited awareness and support in her immediate environment, she has emerged as a top performer, driven by self-discipline and determination.

Achievements

This Was Not Luck. This Was Built. Earning Adarsh Marathi Shala Award

In April 2026, **NRC Marathi Medium School** was honoured with the **prestigious Adarsh Marathi Shala Award**. Emerging among the finest schools through a rigorous evaluation process, the school demonstrated excellence across academics, co-curricular engagement, administration, and overall student development. The inspection in March 2026 validated what the school had been building over time, a culture, where learning is purposeful and values are lived daily. Classrooms here are not defined by textbooks alone, but by the intent to shape confident, patriotic individuals. Every system, every process, and every effort was aligned to one goal, quality education without compromise. What makes this achievement truly meaningful is that it belongs to everyone. Teachers who stayed committed, students who stayed determined, parents who stayed supportive, and leadership that stayed focused, together built this success.

EMPOWERING EDUCATORS ENRICHING CLASSROOMS

Adani Foundation continues to strengthen its schools by investing in what matters most, its teachers. In alignment with NEP 2020 and NCF 2023, two focused capacity-building initiatives highlighted a balanced approach to academic excellence and emotional well-being.

A three-day training at Ambuja Vidya Niketan, Kodinar, Gujarat brought together computer teachers from across Adani schools. The program emphasized future-ready pedagogy, introducing AI, Machine Learning, and Generative AI, while reinforcing competency-based classroom learning. Sessions focused on critical thinking, creativity, and integrating technology meaningfully into classrooms, enabling teachers to move beyond rote methods toward experiential learning.

Complementing this, a two-day Mental Health Training in Kutch engaged 50 teachers, equipping them to support student well-being, identify early signs of distress, and build emotionally safe classrooms. With expert guidance, teachers also reflected on self-care and resilience.

Together, these initiatives reaffirm a core belief: strong schools are built by सक्षम, संवेदनशील teachers, who not only teach well, but care deeply.

From Local Classrooms to Global Platforms

In a significant milestone, five student-led STEM projects from Adani Schools have been showcased on an international STEM education platform, making them accessible to educators worldwide.

The featured projects include:

- Solid waste management – NRC School, Mohone (Kalyan)
- Farm waste management – Ambuja Vidya Niketan, Upparwahi
- Clean and affordable energy solutions – Ambuja Vidya Niketan, Ambuja Nagar
- Bio-thermocool innovation – Adani Vidya Mandir, Ahmedabad
- Earthquake-resistant structural design – Adani Public School, Mundra

Embedding STEM, Empowering Classrooms

Phase 3 Rollout: From Training to Classroom Transformation

The STEM Learning Journey – Phase 3 has been successfully implemented across Adani Schools, marking a decisive shift from concept to classroom practice.

This phase emphasizes mentored lesson implementation, rubric-driven prototype development, and curriculum integration, leading to the finalization of STEM-embedded curricula for the academic year 2026–27.

A focused teacher training programme was conducted at Dr. T. N. Naravane Vidyalaya, Kandivali on 18 April 2026, where 14 educators were trained in STEM pedagogy, hands-on prototyping, and classroom integration under the STEMforBharat initiative.

This effort is part of the Adani Foundation's collaboration with the National Institute of Education Singapore, which is steadily reshaping STEM education practices.

To date, **233 teachers across 36 schools** have been trained, strengthening a paradigm shift towards inquiry-driven, experiential learning.

STEM Laboratory in action at AVN Upparwahi

Ambuja Vidya Niketan (AVN), Upparwahi, (managed by Adani Foundation) marked an igniting moments with the inauguration of its STEM Laboratory on April 18, 2026.

The lab was inaugurated by Mr. Mahender Singh Rathore, Unit Head, in the presence of senior officials from Adani Ambuja Cement Ltd. The facility has been established to promote experiential, hands-on learning and to encourage students to explore solutions to real-world challenges through science and innovation.

Students from Grades VI to X showcased a range of innovative projects, reflecting creativity, problem-solving, and interdisciplinary thinking.

Research & Publications

Tracing Infinity: A School's Tribute to the Journey of Zero

Ambuja Vidya Peeth, Rawan, celebrates a remarkable academic milestone with the publication of a research paper titled **"The Evolution of Zero: From Vedic Mathematics to Aryabhata's Scientific Formalization"** by the principal, **Mr Sanjay Kumar Pandey**, in the **International Journal of Research and Analytical Reviews (IJRAR)**.

This scholarly work reflects the school's commitment to nurturing intellectual inquiry, historical understanding, and scientific curiosity. By exploring the profound journey of 'zero', a concept that transformed mathematics and human thought, the research bridges ancient wisdom with modern scientific perspectives.

Changemakers

CAPT PRAMOD CHAUDHARY

Master Mariner, Marine Pilot &
Maritime expert in Merchant Navy

As part of the Changemaker Series, **NRC School** organized an inspiring career guidance session for Class X students, led by **Mr. Pramod Choudhary**, a renowned Marine Officer with over 35 years of distinguished experience in the Merchant Navy and an esteemed IITian. The session, conducted in an engaging question-and-answer format, encouraged students to actively participate and seek clarity on their future academic and career paths. Mr. Choudhary addressed a wide range of queries related to stream selection, emerging career opportunities, and personal interests with remarkable clarity and practical insights. His vast professional experience and real-life examples added immense value, making the session both informative and motivating. His interactive approach not only simplified complex decisions but also empowered students to think confidently and make informed choices.

Cyber Crime Awareness

DAV ACC Public School, Lakheri

(managed by Adani Foundation)

DAV ACC Public School, Lakheri, organised a Cyber Crime Awareness Programme on April 10, 2026 in collaboration with the Taluka Vidhik Sewa Samiti, Lakheri.

The session was conducted by Mr. Md. Arif Ali, Advocate at the Munsif Magistrate Court, Lakheri, with the objective of sensitising students to online safety and digital responsibility. He addressed key aspects such as emerging cyber threats, safe internet practices, protection of personal data, and the legal implications of cyber offences.

Students actively engaged in the session and gained valuable insights into responsible online behaviour, recognising and reporting cyber fraud, and addressing concerns such as cyberbullying.

Where Hearts Meet Beyond Classrooms

Adani Vidya Mandir, Ahmedabad, witnessed a truly heartwarming celebration through its Interhouse Culinary Competition, where students, parents, and alumni came together in a rare and beautiful confluence of generations. Students partnered with their mothers and fathers, transforming the competition into a space of shared creativity, teamwork, and bonding. The event went far beyond culinary skills, it became a celebration of relationships, values, and collective joy.

Adding a special touch, the event was judged by final-year students from the Indian Institute of Hotel Management, Gandhinagar, including proud alumni of AVMA. Their presence symbolized the enduring connection between the school and its students, even years after graduation.

As alumni returned in a new role, guiding, evaluating, and encouraging, the atmosphere turned deeply nostalgic.

Stay Inspired Stay Connected

These stories remind us that real success is not measured only in results, but in the journeys that shape them. Behind every achievement lies discipline, belief, and collective effort. As we move forward, the focus remains clear, to build stronger systems, empower every learner, and ensure no child is left behind.
