Foreword

At the heart of every Adani Foundation school lies a story of hope, a child who dares to dream, a teacher who chooses to believe, and a community that comes together to create opportunities.

This edition of Enzeura celebrates such stories of transformation. Stories of students overcoming barriers, educators shaping futures, alumni reaching new milestones, and schools extending learning beyond classrooms into lives and communities.

Five Penna School Students Secure Prestigious RDT Scholarships After Outstanding Grade 10 Results

Five Penna School Students Secure Prestigious RDT Scholarships After Outstanding Grade 10 Results

Managed by the **Adani Foundation, Penna School, Talaricheruvu, AP**, proudly achieved 100% results in Grade 10 for the academic year 2026–27, continuing its remarkable legacy of 15 years of consistent success. All 38 students passed with an impressive school average of 87.1%, while 30 students scored above 500 marks, reflecting the school's strong academic culture and holistic development.

Adding greater pride to this achievement, five students earned selection to the prestigious RDT Semi Scholarship Program based on their SSC performance. **Each selected student will receive ₹40,000 scholarship support annually till Grade 12**, providing valuable academic and financial encouragement for their higher secondary education journey.

State-Level INSPIRE MANAK Selection

Vedant Sharma of DAV Ambuja Vidya Niketan Darlaghat (managed by Adani Foundation) has been selected for the **State Level INSPIRE MANAK Award**, an initiative of the Government of India aimed at promoting innovation and scientific thinking among school students.

At the district-level competition held at Government Girls Senior Secondary School, Nahan, 85 participants presented innovative scientific ideas and models. Vedant secured a place among the top six participants, earning selection for the next level of the competition.

Addressing Community Problems Through STEM Learning

Students of Class IX at Penna English Medium School, Boyareddypalli, AP brought real community concerns into their classrooms by exploring sustainable solutions to drinking water challenges faced in coastal regions.

Using simple household materials, the students designed and tested a portable desalination model to understand how saline water can be purified for practical use. The activity encouraged students to observe and understand local issues, connect scientific concepts with everyday life, and think critically about practical solutions.

Through the project, students developed problem-solving, collaboration, and scientific inquiry skills while experiencing how STEM education can become more meaningful when linked to real community needs and lived realities.

Internal Grooming & Leadership Development Programme

(May 11-16, 2026)

Adani Foundation Schools successfully conducted a **six-day Internal Grooming & Leadership Development Programme** focused on nurturing future ready school leaders from within the organisation.

12 team members from various schools were elevated into enhanced leadership roles and received exposure to school systems, governance, leadership practices, policies, Adani culture and operational processes.

The programme included impactful sessions on leadership, emotional intelligence, team management, feedback systems, instructional leadership, and Adani Values, guided by senior leaders and Dr. Sheela Ragavan.

Participants concluded the programme with clear action plans for continuous school improvement, stepping forward as empowered, responsible, and values-driven leaders.

Compassion on the Streets

On May 8, 2026, **Adani DAV Public School Kuamara, Odisha** observed **World Red Cross Day** through a community outreach initiative led by its Junior Red Cross Wing.

As part of the initiative, a **"Jal Chhatra" (water kiosk)** was set up at a busy public square near the school to provide drinking water and refreshments to commuters, vendors, and passersby during the summer heat.

Teachers and staff members actively participated in the service activity, which was appreciated by members of the local community.

#StoriesofChange

From First Steps to Graduation: A 15-Year Journey of Transformation

In 2011, Ambuja Public School Rabriyawas welcomed 20 young children from the Sansi community of Balara village into Nursery. For many of these families, this marked the first generation entering formal education, opening a door to opportunities that had remained beyond reach for decades.

The journey was not without challenges. Most children came from economically vulnerable households dependent on daily wage labour. Sustaining attendance, building aspirations, and ensuring continued family support required persistent engagement by the school over many years.

Through transportation, uniforms, books, academic support, mentoring, and regular home visits, the school worked closely with families to ensure that every child remained on the path of learning. Particular attention was given to supporting girls, helping them continue their education and pursue their aspirations.

During the COVID-19 pandemic, when access to digital learning became a major barrier, the school and its well-wishers ensured that students received devices and connectivity support so that learning could continue uninterrupted.

Fifteen years later, in 2026, the same children who entered Nursery together successfully completed Class XII. Their graduation is more than an academic milestone; it is a testament to perseverance, community partnership, and the transformative power of inclusive education..

Alumni Connect

From Daily Wage Struggles to National Law University

Purva Dinesh Rathod, an alumna of **Adani Vidya Mandir Ahmedabad**, has **secured admission to Hidayatullah National Law University after clearing CLAT 2026**.

Purva comes from a family that faced significant financial challenges. Her father repairs xerox machines, and when she joined the school in Class III from a Gujarati medium background, the family's annual income was ₹66,000.

Over the years, with steady support from her family, teachers, and mentors, she continued to work quietly and consistently towards her goals.

Reflecting on her journey, Purva shared that the school always felt like a second home and credited her teachers and parents for helping her manage both board examinations and competitive exam preparation with confidence and balance.

Stay Inspired Stay Connected

The stories in this edition may belong to different schools and different individuals, but they are united by a common thread, the transformative power of education.

Behind every success is a journey of courage, resilience, care, and human connection. Every milestone reflects the collective efforts of students, teachers, parents, and communities working together to create brighter futures.

As we close this edition of Enzeura, we celebrate not only achievements, but also the lives being shaped, dreams being nurtured, and possibilities being unlocked every day.

In Adani Foundation schools, education is not just about what a child learns, it is about who they become and the difference they go on to make.
